Graduate Trainee – Technology

India

Information Technology (IT)

Group Functions

Your role

Are you looking for a challenge?

As a Graduate Trainee in the Technology Organization, you will:

- have the opportunity to work on real-world projects that impact the company and our clients.
- collaborate with experienced engineers and analysts on developing and implementing advanced financial technologies.
- participate in the design, development, and testing of software applications and systems.
- gain exposure to cutting-edge technologies such as artificial intelligence, machine learning, and cloud computing.
- analyze complex data sets to provide insights and support decision-making processes.
- attend workshops, training sessions, and networking events with industry leaders and experts.
- engage on sustainability and social impact projects, as UBS deeply cares about the environment and communities it operates in.
- present your projects and findings to senior management and stakeholders at the end of the internship.
